SUMMARY

Hands-on performance marketer with 7+ years in digital marketing and current responsibility for an annual paid media budget above RM2M across Google, Meta, TikTok and LinkedIn. Higher education student acquisition background covering campaign planning and optimisation, landing page delivery, GA4/GTM measurement, and CRM-connected lead capture through Salesforce Web-to-Lead with UTM-based campaign attribution.

EXPERIENCE

Assistant Manager, Digital Marketing & Analyst

JUNE 2022 — PRESENT

Cyberjaya Education Group Berhad · Cyberjaya, Selangor

- Plan, execute and optimise student acquisition campaigns across Google Ads, Meta, TikTok and LinkedIn, managing an annual budget above RM2M.
- Own campaign structure, audience and keyword strategy, spend allocation by intake cycle, weekly reporting and optimisation decisions.
- Built 100+ campaign landing pages and maintain 12+ group websites, including conversion structure and technical SEO.
- Implemented GA4 and Google Tag Manager measurement across group sites: enquiry event definitions, conversion tracking and campaign reporting.
- Configured Salesforce Web-to-Lead HTML forms on landing pages and hidden UTM fields for campaign source attribution.
- Provide marketing and attribution requirements for in-house embedded form development, including campaign naming conventions and UTM lead tracking.
- Coordinate platform and tooling vendors; mentor junior colleagues on website and channel fundamentals.

Digital Marketing Manager

JANUARY 2021 — MAY 2022

2M World Sdn Bhd · Batu Caves, Selangor

- Managed paid campaigns across Google and social platforms against performance and ROI targets.
- Analysed campaign performance to reallocate budget and reduce acquisition cost.
- Aligned digital initiatives with business and product objectives across internal teams and external stakeholders.

SELECTED PROJECTS

Salesforce Web-to-Lead and campaign attribution

Configured Salesforce Web-to-Lead HTML forms on campaign landing pages, added hidden UTM fields for campaign source attribution, and connected landing page submissions to Salesforce lead capture so lead source is stored at submission rather than reconstructed later.

GA4, GTM and campaign measurement

Defined enquiry, form start, form submit and WhatsApp click events, implemented them in Google Tag Manager, and aligned GA4 conversions and Looker Studio reporting to one shared set of definitions across group websites.

Landing pages and website estate

Built 100+ conversion-oriented landing pages for lead generation and maintained 12+ WordPress sites, covering structured content, page performance and ongoing conversion adjustments.

SleekFlow WhatsApp lead qualification

Designed a WhatsApp qualification flow to capture enquiry details up front and route conversations to the right follow-up owner, reducing reliance on manual first response.
